

## Mink Eyelash Extensions Calgary

---

There are different types of Eyelash Extensions. The most popular extensions are called 'singles'. They are applied one by one directly to your own natural EYELASH. Hotlashes carries Eyelash Canada product line. Eyelash Canada uses a medical grade adhesive that has been approved by Health Canada. This adhesive permanently attaches the extension to your own natural eyelash. Our adhesive contains the same main ingredient that is found in the medical adhesive used by Doctors to close wounds instead of doing stitches. When treated with proper care these extensions will last for the full cycle of your eyelash growth. Eyelashes grow for 45 to 90 days and then become mature lashes and naturally fall out. Then they are replaced by new younger lashes which will also last 45 to 90 days and the cycle goes on. The extension will also fall out with the old natural lash.

different types of eyelash extensions to choose from. We carry every different type of lashes on the market. Single synthetic, Mink, Silk, Y-lash, W-lash, Semi synthetic, Clusters, one piece false lash. We carry all different lengths 7mm up to 18mm and 3 different thickness 0.15mm, 0.20mm, and 0.25mm. These also come in 3 different curls J-curl for a more natural look, B-curl for a more curled but still natural look, and C-curl for the ladies who like that extra curly look. All curls stay in place. You never have to curl them.

### **Booking an Appointment**

#### **Choosing a service**

Deciding on a lash service is as individual as you are. When you go for your first appointment, Jamie Hardy B.A/Kin, B. Ed Master Tech will go through a consultation with a series of questions to get you exactly what you want. This consultation is included in your fullset appointment and is done immediately before the lash tech starts your set of eyelash extensions.

#### **Booking an Appointment**

Jamie Hardy B.A/Kin B.Ed is currently booking appointments through phone calls or text messaging. Feel free to call or text Jamie anytime with any appointment requests or questions at (403) 999-4455. Booking online will be set up in the near future.

## **Cancellation policy**

If you need to cancel or reschedule an appointment, it is necessary to give Hotlashes at least 24 hours notice so that the spot can be filled. If the notice is less than 24 hours, it is considered your time slot. If you are more than 15 minutes late, your appointment may be automatically cancelled, and considered a no show. All no show appointments must pay a \$20 no show fee for fill appointments and a \$40 no show fee for a full set appointment due to time lost.

## **About Hot Lashes**

Hot Lashes is ran by Jamie Hardy – B.A /Kin, B. Ed Master Eyelash Technician Western Canadian Reigional Eyelash Trainer

Jamie Hardy B.A/Kin, B.Ed Master Eyelash Extension Technician has several years experience in applying lashes and training certification in eyelash extensions. In 1997 Jamie went to University of Lethbridge and recieved her Kinesiology degree in 2001. She then started her professional career in the Occupational Therapy department at the University of Alberta hospital. Jamie discovered eyelash extensions 4 years ago when she saw a coworker with extensions. She quickly excelled at this precise intricate detailing form of art, and now specializes in clientelle with regular lashes, sparse lashes, damaged lashes, cancer patients, and clients with alopecia.

## **Frequently Asked Questions**

### **What exactly is this, again**

Eyelash Extensions are a synthetic/mink/silk or other material that is placed on your natural lash, extending it and making it thicker and darker to your liking. There are several different curl, thickness, lengths, and materials to choose from. These extensions adhere to your single lashes and shed off during your natural shedding phase.

### **How is this different from mascara**

Mascara is something that you need to put on everyday and wash off. Eyelash extensions are a semi permanent extension on your individual eyelash that you don't need to wash off, and it doesn't smear or crumble down your face!

### Why does this seem so pricy

Eyelash Extensions if done properly can last up to 2 months on your lashes. This allows you to not have to wear **make** up and brightens your eyes, the open you open them in the morning! What a great investment just like other procedures such as hair extensions, laser hair removal, microdermabrasion, all which are a cosmetic investment.

### Is this safe

Eyelash Extensions if done by a certified lash technician is very safe. Please do your research and ensure your eyes are in good care when choosing a lash bar and technician. Ask to see one's certification and background before you let them touch your eyes! At Hotlashes you can ensure the upmost safety with Jamie HArdy B.Kin/B. Ed with her Master Advanced Technician certification, and the experience to back it up, and to give you exactly what you ask for.

### Training

Hot Lashes is ran by Jamie Hardy – B.A /Kin, B. Ed Master Eyelash Technician Western Canadian Reigional Eyelash Trainer Jamie Hardy B.A/Kin, B.Ed Master Eyelash Extension Technician has several years experience in applying lashes and training certification in eyelash extensions. She quickly excelled at this precise intricate detailing form of art, and now specializes in clientelle with regular lashes, sparse lashes, damaged lashes, cancer patients, and clients with alopecia.

## Before/After Photos

"I was so nervous getting my eyelash extensions for the first time. After having my initial consultation with Jamie I was put to ease. Best part... nothing hurt as I imagined it would and it never damaged my real lashes!" **Brenda Peterson, Airdrie AB**
